

Tap into today's hottest beverage trend.

Nitro cold brew coffee is one of the hottest things happening in beverages. But it's only the beginning.

EASY TO INSTALL... and far simpler than other technology on the market, the new Curtis Nitro Infuser lets you impart a smooth, velvety mouth-feel to a variety of drinks, for an experience customers will clamor for, and keep coming back.

Industry standard speedfit connection system allows for quick installation (hoses sold separately)

NEW

Bring your cold brew sales To A Head!

CURTIS
NITRO INFUSER

**SIMPLE, SMART,
PATENTED DESIGN**

**UP TO THREE-TAP
CONTROL FOR
MULTI-MERCHANDISING**

**COMPACT DESIGN
FITS ALL SPACES**

Add drama to any drink!

CURTIS NITRO INFUSER

Nitrogenation not only transforms otherwise ordinary drinks, it also brings a definite cool factor to coffees, teas, and juices, while bringing you more traffic, beverage sales and profits.

But not all infusers are alike. Go with the infuser designed and built by foodservice experts. The one engineered to perform right from the start – with zero fuss. Go with the Curtis Nitro Infuser.

- **EXPANDS DRINK OFFERINGS**

Build traffic and increase margins by offering a variety of specialty drinks.

- **SUPERIOR CASCADING**

Dual vortex and venturi design accurately infuse drinks to provide superior cascading, a beautiful presentation and incredible taste.

- **EXCLUSIVE PATENTED DESIGN**

Easy to install, easy to operate. The Curtis Nitro Infuser has NO delicate electronics, NO power requirements, and NO uncontrollable ball valves. Individual precision needle valve controls let you dial in just the right amount of nitrogen infusion.

- **EASY TO CLEAN, STAINLESS STEEL CONSTRUCTION**

The Curtis Nitro Infuser is ruggedly built to last longer, prevent rusting in damp, cold conditions and simplify clean-ups.

- **PRECISION ADJUSTABLE NITROGEN LEVELS**

Fully adjustable to allow greater head and more cascading. The Curtis Nitro Infuser produces a longer lasting drink that seems thicker, creamier and sweeter without adding additional calories.

- **UP TO 3-TAP CONTROL MECHANISM**

Choose from 1, 2, or 3-tap models to offer multiple nitro-infused beverages at the same time.

- **COMPACT SIZE**

Other infusers can be bulky and difficult to find space for... the Curtis Nitro Infuser can be concealed inside or mounted on the outside of a kegerator with its convenient bracket.

The Curtis Nitro Infuser is an in-line, on-demand infusion system that fits easily into any space. It completes your setup by bringing nitro infusion to cold brew. No additional regulators or pumps are needed.
