

Raise the curtain — and their curiosity

True coffee lovers know. A great cup is more than a beverage. It's an experience — one full of enticing sights, sounds and aromas. So why put any barriers between you, them and what they crave?

Now, you don't have to. Introducing the Curtis Seraphim®

One delicious Golden Cup, coming right up

The Seraphim® definitely puts on a great show. But its beauty is more than skin deep. Like all Curtis brewers, it's equipped to produce a consistently delicious SCAA Golden Cup of coffee. An intuitive G4 digital control system, patented brew cone and proven Curtis technology make sure of it.

Batch-Brew: Re-Imagined Curtis G4 Seraphim® Coffee Brewer

FEATURES	BENEFITS
Head-Turning Low-Profile Design	Commands attention, and can easily be added to even the most crowded countertops.
Unique Under-Counter Brewing System	Removes any barriers between you and customers by concealing brewing components under the counter.
Curtis G4 Digital Touchscreen Controller	Provides precise, one-touch control over all brewing functions, plus self-diagnostics to reduce maintenance costs.
SCAA Golden Cup Capabilities	Seraphim® is designed to produce a gourmet cup of coffee consistently meeting the SCAA Golden Cup standards.
Patented Single Cup Brew Cone	Optimizes extraction for a superior cup of coffee.
Multiple Brewing Methods	Chemex, Kalita, V60, Bee Dripper, Able Kone Brewing System, French Press, etc.
Stable Temperature and Flow Rate	Ensures consistent quality cup after cup; batch after batch.
Cast Aluminum Neck and Brew Head	Heavy-duty to stand-up to day-to-day use.
Zero Cavitation	Creates a stable environment that eliminates low-pressure pockets for ideal extraction of grounds.
Color Options	Flat Black and Pearl White to suit any décor.
5-Gallon Hot Water Tank	Extra large capacity to easily handle back to back to back brewing.

Batch Brewing Re-Imagined single cup coffee brewer

Perfecting the art of brewing since 1941.

©2015 CURTIS

Seraphim®

For a truly spectacular cup of coffee.

With its sleek, minimalist footprint, incomparable styling, plus powerful, innovative features, the new Curtis Seraphim® combines the art and science of batch-brewing, and gives new meaning to the term 'great performance.'

The only machine of its kind, it allows you to make amazing coffee time after time, with no inconsistencies.

By lending a touch of "coffee theater," the Seraphim® can help you bring in customers that want something delicious to drink—plus something fascinating to see.

Small is the new big

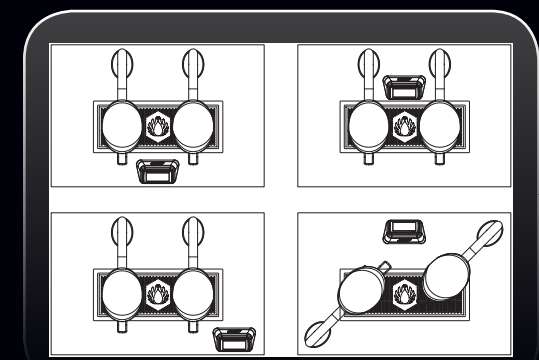

The Seraphim® puts the art of batch-brewing right into your operation — front row center. Taking up a mere 2' x 3' of room, it fits easily onto your existing counter space, and looks impressive, too.

How could a machine with such a strikingly low-profile make such a huge impact? Curtis innovation, that's how.

Mount it how you want it

The Seraphim® can be configured many different ways to help you deliver maximum batch-brewing impact. It mounts virtually anywhere.

Plus, you can even install it on a cart to bring the show and aroma of great coffee right to the customer.

Built on a proud, award-winning tradition

The Seraphim™ is built on the chassis of the 2012 SCAA Best New Product™, People's Choice Award Winner, the Curtis Gold Cup Brewer, and the industry-standard Curtis Water Tower.

Yet it's truly unique. There's no other batch-brewing system like it in the world

Seraphim® is powered by Curtis' proven 5-gallon Digital Water Tower

Easily brew into single cup, Chemex®, Kalita®, Hario®, Bee House®, Able Kone® or French Press

Curtis G4. It's digital technology that puts you in control

The intuitive Curtis G4 touch screen control on the Seraphim® provides precise control over all brewing functions. Expertly profiled, pre-set recipes

let you punch up a variety of delicious, SCAA Golden Cup recipes — right out of the box, while advanced self-diagnostics

continually monitor your system.

G4 controls take the guesswork out of batch-brewing — for a memorable, infinitely repeatable cup of coffee.

Under the counter. Over-the-top performance.

Bulky componentry is often needed to produce exceptional beverages. But we designed the Seraphim® with a unique under-counter brewing system to place those essentials out of sight, keeping you and your coffee top of mind. Just add a grinder and you'll not only make an amazingly good, wonderfully fresh cup of coffee. You'll make quite a production out of it.

Bring the art, science and profit of batch-brewing to your operation.

Bring on the Seraphim®

After you're done using the Seraphim® to dazzle people with a singular cup of coffee, the only question is, what will you do for an encore?
