

## Installation and Set-up Instructions

**G4GEMXSIFTR10A3026**  
Single G4GemX 1.5 Gallon Brewer  
IntelliFresh® and FreshTrac® Technology

After un-boxing the brewer, remove the brew basket and dispenser. Prepare all the parts for installation. Important: Gloves must be worn at all times during installation.

### 1. Prepare all Parts

Lay out all components and tools needed for installation.

### 2. Install Brewer Legs

Attach all four (4) legs to leg mounts. Turn clockwise to tighten.

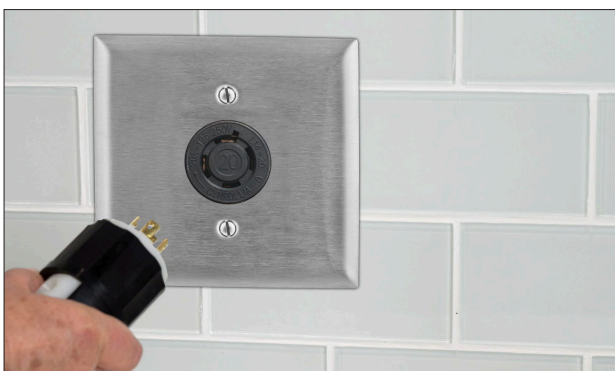

### 3. Level Brewer

Turn lower section of leg left or right to adjust.

### 4. Connect the Water

Use existing water line from previous brewer. Connect with quick connect fitting.

### 5. Connect the Power

Insert plug into receptacle, then twist to lock in place.

### 6. Attach Faucet

Place on stem in the upright position. Thread on until hand tight. Attach DECAF (orange) faucet in the same manner as needed.

### 7. Attach Faucet Guard

Ensure guard is in correct position. Align and secure 4 screws with screwdriver.

### 8. Lock the Lid

Place lid on the dispenser. Lock in place with slight turn clockwise.

### 9. Turn Brewer On

Switch toggle on the back of brewer to the ON position. Front display will light. Brewer may initially take 15-20 minutes to heat up.

### 10. Position Dispenser

Place on brewer, lights will flash green.

**i IMPORTANT** - Verify that contact has been made between the dispenser and brewer.

### 11. Run a Cleaning Cycle

Use Kay Filter Pouch® Cleaner.

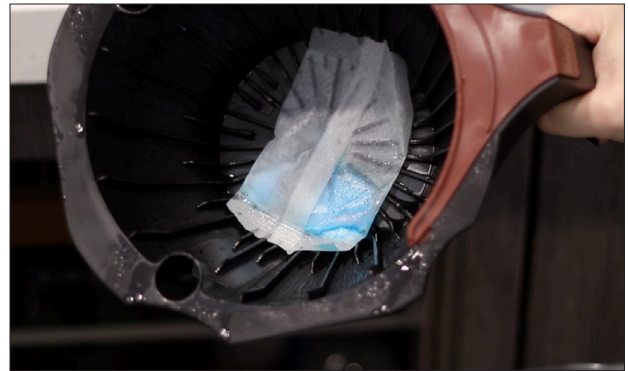

### 12. Use One (1) Pouch

Place into brew basket. Replace basket into brewer.

### 13. Start Cleaning Cycle

Press "REGULAR", then "LARGE BREW".  
Cleaning will begin immediately.

### 14. When Brew Cycle is Complete

Discard Kay Filter Pouch, rinse brew basket and allow to air dry.

### 15. Allow Solution to Sit for 10 Min.

Allow solution to sit in dispenser for 10 minutes, then discard.

### 16. Discard Cleaning Solution

Dispense through faucet for at least 10 seconds.

**!** **WARNING - AVOID SCALDING:** Liquid inside the dispenser is extremely HOT. Use caution when performing this step.

### 17. Discard Remaining Solution

Remove lid and empty dispenser.

**!** **WARNING - AVOID SCALDING:** Liquid inside the dispenser is extremely HOT. Use caution when performing this step.

### 18. Rinse the Dispenser

**!** **WARNING - DO NOT immerse dispenser in water. DO NOT place dispenser in dishwasher.**

### 19. Empty Water

Allow water to flow through faucet for 10 seconds.

**!** **WARNING - DO NOT immerse dispenser in water. DO NOT place dispenser in dishwasher.**

### 20. Discard Remaining Water

### 21. Sanitize Dispenser

Fill dispenser with solution of Kay® SolidSense™ Sanitizer. Allow to sit for one (1) minute.

### 22. Discard Sanitizer

Dispense through faucet for at least 10 seconds.

### 23. Discard Remaining Sanitizer

Do not rinse.

### 24. Lock the Lid

Place lid on the dispenser. Lock in place with a slight turn clockwise.

## 25. Position Brew Basket & Dispenser

Place on brewer. Dispenser lights will flash green.

**i** **IMPORTANT** - Verify that contact has been made between the dispenser and brewer.

You are now ready to brew
