

# GemX™ Narrow IntelliFresh® Coffee Brewer with Narrow FreshTrac® Dispenser

Model: G4GEMXNR10A3026

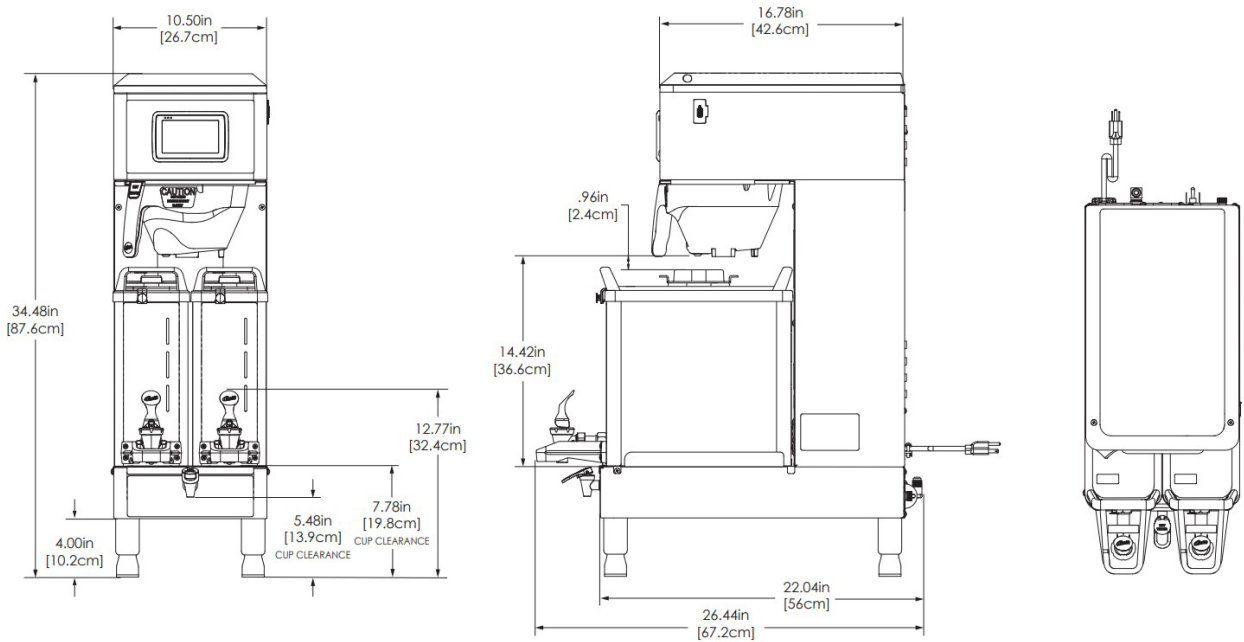

## ■ Features

- **Save valuable counter space.** Store two 1.5 Gallon dispensers in the space of a standard GemX.
- **Freshness indicator.** Modern design with large, color changing LED lights representing coffee freshness and volume. Keeps coffee fresh and hot for one hour.
- **Reduce waste.** Supports smaller batch sizes for non-peak hours.

## Additional Features

- **Mobile coffee dispensers.** Add/remove dispensers and warmers, anytime and anywhere.
- **Increase cup quality and consistency.** Restriction Brew technology prevents brewing if old coffee is detected in the dispenser. GemX Narrow ensures each dispenser is pre-heated prior to brewing, so every cup is served at the ideal temperature.
- **Rotating brew basket.** No need to move dispensers for brewing.
- **Automatic brew cone lock.** Brew cone automatically locks into place during brewing process, preventing users from accidentally removing it.
- **Quick and easy updates.** Software and recipe updates take less than 30 seconds through the USB port.
- **Minimize down time.** The self-diagnostic system runs tests on critical components to troubleshoot and ensure service providers arrive with the right parts, minimizing down time. GemX Narrow also issues on screen warnings when water scale or pressure impact brewing.
- **Best in class warranty.** GemX Narrow is backed by a 3-year parts and labor warranty on the digital control board and touch screen. All other components are supported with a 2-year parts and labor warranty. See warranty statement for full details.

Model: G4GEMXNR10A3026
